Old title: PC Wireless Gaming Receiver for XBOX 360 controllers I have bought the hardware recently, unfortunately the software will not install(presumably got a broken CD). Click search from list of drivers, scroll down to Microsoft wireless controller!Highlight The microsoft controller and click next, a list of microsoft gaming accessories will appear! Click on Microsoft wireless receiver and then next! (it will say it is not recommended to install driver because unknown publisher, but if you installed software from you know the driver came from there!.. So I was wondering if I can get a driver online for this specific hardware I cannot find it anywhere.. If you have Windows 7: 1 Click start, right click computer and then click device manager!Right click where it says unknown device, then sear internet for driver (it will say cannot find driver but below will say search driver myself from list!) 3.

Device downloads For software and drivers, select your product from the list below.. Xbox 360 Wireless Controller for Windows Select driver language Old title: PC Wireless Gaming Receiver for XBOX 360 controllers I have bought the hardware recently, unfortunately the software will not install(presumably got a broken CD).
